HANALEI WHARF APPROPRIATION WITHHELD

Work Must Soon Begin Or Kauai Citizens Will Know Why

Must Stop Dallying Make \$60.00 Haul

The citizens of this Island at the present moment are very much interested in the fate of the appropriation passed by the Legislature for a wharf at Hanalei.

For a number of Sessions an appropriation, or bill, has been under consideration for the purpose of erecting a wharf at this famous beach, but not withstanding the reputation of our Kauai Legislators and their ability to "do things," until the last Session they were certainly "done" out of landing the means to provide for its construction.

Within the last two years the necessity for this wharf has become even more apparent and urgent. All former objections to its construction having been met, it was hoped that by providing for it's erection out of the general appropriation bill, next winter would find Hanalei with its long over due wharf.

Recently the reports that have come from the Capitol by word of mouth, and newspapers, in reference to many public questions, are of such a nature as to cause us Garden Islanders to drop our hoes long enough to listen for not only the buzz of the Mediterranean fly, but with ears to the ground to get a line on whether the course of Empire is tending.

We are told that our high officials are contemplating an attempt to thwart the will of the people as expressed by their representatives in Legislature assembled.

Being simple rural people, we are inclined to doubt the existence of any grounds to warrant even the intimation of such "goings on" at a time in this political age when the primary law, the initiative, referendum and recall are menacing the downfall of anyone or anything which is not "of the people, by the people and for the people."

Just when we expected to hear of plans and contemplated action favorable to the construction in the near future of the Hanalei wharf, we are informed by the papers that the Hon. Marston Campbell, the Superintendent of Public Works, has gone for a "much needed vacation" to his old home in Oakland where he is going to "loaf and fish off the long wharf" and that the Governor had asked him to hold up the Hanalei wharf while he was holding down the Oakland wharf with the fishing pole he manipulated so adroitly during the last session of our Legislature.

He told the Frisco papers that he was the "right hand man of the Governor" but failed to mention the modesty which prevented him from letting the left hand know what was the right hand did at times.

The other day, "having been jolted from the consideration of affairs of State to make a close inspection of our fruit for the presence of the dreaded fly from the regions of Monte Carlo, we were startled by neighbor Smith's voice from over our garden wall with "have you read in the papers that our Honorable Delegate to Congress has gone to a palmist to see if he should present for the consideration of Congress the resolutions passed by our last Legislature?"

All of which leads us to remark that if the Acts of the Legislature can be held up, held back or held down by the Governor of the Territory, our delegate to Washington or the Superintendent of Public Works, we can appreciate the feelings of the quadruped who is credited with the ejaculation "what's the use" when his olfactory organ

KOLOA PLANTATION STORE RAIDED BY THIEVES

Full Set of Burglars' Tools Found Which Indicates Professionalism

Make \$60.00 Haul

(Special to the Garden Island)

Burglars entered the Koloa Plantation Store sometime Saturday night, gaining an entrance through the office. The burglars were evidently frightened in the early stage of the game, as a kit of burglars' tools consisting of a crow-bar, a pick, several knives, and an electric flash light were found. Goods to the value of about sixty dollars were taken, including a quantity of perfumery. Some little change which had been left in the money drawers was also taken. A monkey wrench which had been taken from show case was found lying near the safe, and it is thought an attempt had been made to open the safe. No clew was left by which a trace could be found of the burglars. This is the third attempt at robbery within the last six weeks.

Road Luna Onokea Is Bound Over

(Special to the Garden Island)

WAIMEA, June 26.—Road Luna Onokea, who was arrested last Friday, charged with embezzlement of County road funds, had his hearing before Judge Akina here this morning. He was bound over to the Grand Jury under the sum of five hundred dollars.

Baseball, Cure For A "Grouch"

The management of the Makaweli and the McBryde plantations are to be commended for putting a train at the disposal of their employees. It started from the Makaweli landing and picked up the employees along the way, arriving at Koloa with the Makaweli Club besides 250 spectators. While the score was not even, being 9 to 1 in favor of Makaweli, the crowd was intensely interested. In fact the interest is steadily growing.

It keeps pace with the improvement of the clubs. These league games are a great improvement over Sunday drinking and card parties.

People are speculating during the week about the coming game and have something to think about in place of nursing a grouch.

Captain Puck To Be In Waimea

(Special to the Garden Island)

WAIMEA, June 26.—Major Wills, of the Salvation Army, paid a visit to Waimea last week, and installed Capt. Chas. Puck, in charge of the Waimea corps. Capt. Puck attended Oahu College previous to taking up his present line of work, and for the past two years, has been stationed in Hilo, where he left a host of friends.

New Water Supply For Kilauea Cane

(Special to the Garden Island)

The Kilauea Plantation is constructing a new reservoir, which when full will contain about one hundred and fifty million gallons. It is to be completed within three or four months and will greatly increase the yield of cane as it will establish a more permanent irrigation supply.

TWO OF OUR LEADING EDUCATORS RESIGN

After Twenty-Eight Years' Of Faithful Work In The Department Of Education, Prof. Alexander Will Tour World With Mrs. Alexander

Prof. and Mrs. J. B. Alexander, who will leave shortly on a world tour.

Prof. Alexander is a native of Scotland, having been born in Greenock, in 1859, and after attending Grammer School, went to Glasgow University, where he had the privilege of attending the classes conducted by Sir. William Thompson, known later as Lord Kelvin, famous as a mathematician, and inventor, and R. C. Jebb, editor of an elaborate commentary on the plays of Sophocles.

In response to an invitation of some friends, he came to Kilauea in 1883, he conducted the school there for some years, the great majority of the pupils at that time being only beginners in English. At that time the plantation was under the management of R. A. Macfie, a very progressive and energetic man, who was among the first, if not the first, to introduce steam plowing and permanent and portable railway in Hawaii. A notable person in the district was C. Bertelmann of Pilaia, known for his

hospitality and hearty manners.

In the beginning of 1892 Mr. Alexander moved to Lihue, where he became principal of the public school, an office which he now relinquishes with regret, but with satisfaction that he is free to visit countries which have been in his mind more or less frequently in the past. He has from time to time tried to keep in touch with the wider forms of civilization by visits to Europe and California, at the latter making it a point to become acquainted with methods and thoughts of some of the greater teachers of the United States.

He had the satisfaction of proving to the educational authorities of the time, the value of the tonic sol fa system of teaching to read music, and of seeing it adopted definitely as a true form of writing and expressing music.

Mrs. Alexander has been an assistant to her husband, in the capacity as teacher since 1892.

SHAKESPEARE REGISTRATION A BIG SUCCESS

Prof. Alexander Once More Recites To Appreciative Audience

Is Fare-well Recital

The Shakespeare recital and musicale given by Mr. and Mrs. J. B. Alexander on Saturday evening June 24th., was indeed a literary and artistic success. Although this is not the first time that Mr. Alexander has given evidence of his wonderful dramatic ability, yet it was almost impossible to realize that so profound a drama as that of Hamlet could have been given so skilful an interpretation by one who is not a professional actor.

The impersonation of Hamlet showed great appreciation of his character. Each character stood out separate and apart; the sombre, melancholy Dane, wrought to such intensity of feeling; the simplicity of Ophelia, even in her loss of reason; the guilty King and Queen, and the pertinent remarks of Polonious, were alike wonderfully depicted, and all who listened to Mr. Alexander's power of bringing vividly to one's mind the personality of each character, must have had Shakespear's words flash through their mind. "Age cannot wither nor custom stale his infinite variety."

There were several delightful musical selections, all of which received hearty encores. After this "Show of reason and feast of soul," delicious refreshments were served, and then followed old times songs and farewell speeches by several of the gentlemen. Such hours are an inspiration to both brain and heart; and in these isolated localities, where one gets but a meagre opportunity for literary stimulants, one appreciates the entertainment given on Saturday evening. Mr. and Mrs. Alexander have proved themselves a charming host and hostess, and they will indeed be missed by their friends. The programme for Saturday evening was as follows:

LAST SUNDAY BALL GAMES BELOW AVERAGE

Lihue Diamond Scene Of A Poor But Exciting Exhibition

Kilauea Team First

The K. A. C.'s. won their first game of the season on the Homestead field last Sunday, when they pruned the pineapple farmers to a tune of 5 to 3 in a hard struggle. So far, it has appeared very much as though they were to be left behind in this series, but they now seem to have pulled themselves together and out of the hole, and occupy a position on the percentage list not great distance from Homesteads.

By far the weakest exhibition of baseball by two crack teams, which has been staged this season, was pulled off Sunday, when the Makaweli and Lihue teams crossed sticks on the Lihue Diamond. Aside from a number of individual plays, the game was entirely shorn of the least intimation of the class of ball which might be expected from what are supposed to be two of our best teams. Errors were equally divided however, and the even scores prevailing from the second to the eighth innings, caused the greatest excitement. At the ending of the first half of the 9th., Lihue retired with a score of 15 to 10, and had there been less errors during the game, the home team might have been considered easy winners. Waiau, who had pitched a winning game for Lihue up to this time, took an arial flight. He fumbled, paid no attention to base steals and walked three men, each time filling bases. The result of these errors cost Lihue the game, as they were responsible for the six extra runs which the visiting team rang up on the last lap, giving them a score of 16 against 15 and the game was won. Waiau has the making of an excellent pitcher but evidently an insufficiency of strength to last throughout a nine inning game. Oponui and young Fernandez were in excellent team form and gained much admiration for their shrewd playing. Makaweli batted a home bagger which also brought in two others who were anchored on bases, thus increasing the score by three runs. Malina made two three-base hits. The Makaweli 1st. base showed skill seldom seen in the local league. Akina pitched in his usual good form but his support was, generally speaking, not up to standard by any means. The Lihue catcher was distressingly weak, as was also the first pitcher. On the whole, the game is conceded to have been by all odds, one of the most exciting but at the same time, poorest, ever played on the local field.

Kilaueas, "the leaders," added another jewel to their crown on Sunday, when they battered the Eleeles to a pulp on the Makaweli ground. It was give and take from the word "go." At the 9th. inning the score stood 10 to 6 in Kilauea's favor, but the Eleeles got a hunch and came over the plate with three more scores, the curtain dropping with 10 to 9 in favor of the Kilaueas. The Kilaueas are now very much in the lead and are playing with a determination which bodes ill for the team which lacks such a spirit.
